Fractional Currency Continues to Display Growing Vigor!

Thank you for the overwhelming response to our first catalogue. The past year was a great year for fractional currency. We got the opportunity to buy and sell the very rare FR1354 (*only seven known*). What a thrill! We received calls from many new collectors. Some confided that they are now collecting fractional currency and have stopped collecting large size.

The following is quote from the Currency Dealer Newsletter (*The Green Sheet*) 4/2001: "As prices for large size type have advanced so significantly over the past three to five years, a growing number of collectors have shifted their focus to fractional, based on the conclusion that fractional currency simply represents a better value when one compares rarity, difficulty of acquisition and ultimately its price." Therefore, with the number of new collectors of fractional currency on the rise, the demand for the high-grade and rare notes will continue. With less supply available and demand on the rise, prices for these notes have nowhere to go but up! Prices in this catalogue will be in effect until January 1, 2002.

Please take a few minutes to look over our extensive selection of notes. If you do not see a note you need, please give us a call. We are always buying notes, with new offerings becoming available each week. We are in constant need of better or high grade fractional. If you have notes for sale, please give us a call at (916) 687-7219. We specialize in fractional currency and can always pay top dollar!

Thank you and enjoy the notes you buy.

Very scarce. Inverted back.
30 or so known \$ 425.00

- Fr. 1240 10¢ GEM
Good full perforations and great color \$ 399.00

GRADING

Grading is subjective judgment of the person with the note in his hand at the time. Legitimate differences can and do happen. The notes here are all graded on my judgment of collecting and selling fractional currency for the past 30 years. If you do not think the note you buy from me is that grade, please send it back for a full refund.

Gem crisp uncirculated (Gem): An almost perfect note. Better than average margins with good centering on both sides for that type of note (i.e., due to sheet layout, most justice notes are very close on the margins).

Choice crisp uncirculated (CHCU): A new note but not quite Gem centering. May be a little off (i.e., three good margins & once close margin). Might show some aging.

Crisp uncirculated (CU): No signs of circulation. Can have centering problems, pin holes, counting smudges or wrinkles.

Almost uncirculated (AU): These notes will be much like new notes, except for one fold or a couple of corner tip folds.

Extra fine (XF): Circulated. Will have 2 or 3 folds.

Very fine (VF): Circulated. Will have 4 to 6 folds.

Terms and Conditions

All currency is guaranteed authentic.

14-day return privilege

California buyers: include sales tax

Personal checks from parties unknown to us must clear before we ship.

As always, we'll pay the shipping!

Fr. 1313sp	50¢	1st Issue	Gem	Back wide margins	\$ 350.00

GRANT-SHERMAN SPECIMENS

Grant-Sherman notes were issued as specimens only. The total printed was only 9,016. As of 1884, only 3,513 were still outstanding. The notes were printed on very thin paper and some notes are still on fractional currency shields. How many can be left today? The auto-graphed Sherman and Grant notes seem to me to be one of the most overlooked fractional currency values! I am pleased to offer the following:

Fr. 1272sp 15¢ Gem Front narrow margins with good embossing \$ 650.00

Fr. 1272sp 15¢ CHCU Front narrow margins with good embossing \$ 395.00

Fr. 1272sp 15¢ Gem Green back. Narrow margins with good embossing \$ 350.00

Fr. 1272sp 15¢ CHCU Green back. Narrow margin with great color \$ 225.00

Fr. 1275sp 15¢ Gem Front narrow margins with very scarce autographed sigs Allison & Spinner \$ 690.00

Fractional Currency Collectors Board

REVISED DUES STRUCTURE (as of July 1999)

Due to ever-increasing costs associated with printing and mailing of newsletters and other items, the following revised dues structure was adopted by the FCCB at their 1999 annual meeting.

Please choose the option you desire:

☐ **Option 1: \$15**

New member gets added to the mailing list for all future mailings.

☐ **Option 2 : \$22**

New member gets added to the mailing list for all future mailings and receives the *"Simplified Edition of the Encyclopedia of United States Postage and Fractional Currency."*

☐ **Option 3: \$30**

New member gets added to the mailing list for all future mailings and receives the *"Simplified Edition of the Encyclopedia of United States Postage and Fractional Currency"* and *"The Encyclopedia of United States Postage and Fractional Currency."*

**FRACTIONAL
CURRENCY
COLLECTORS
BOARD**

Come read inside and learn about one of paper money collecting's most exciting fields!!

FRACTIONAL CURRENCY COLLECTORS BOARD

Some of the best advice given to collectors, young and old is "Read the book before you buy." This is a very sound practice and should be adhered to by even "expert" collectors. In the fields of general numismatics and paper money collecting, this is very easily done as there are literally hundreds of references to choose from. However, as a collector gets into a more specialized field, these references are harder to find. This is especially true in the field of **fractional currency**. There were a number of books written years ago dealing with fractional; however, there has only been one major reference written in the last twenty years, and it is increasingly harder to find. So, in order to fully study and understand the field of fractional currency, one has to rely on other methods of information gathering.

FCCB

The best method to achieve this is to be a part of a network of individuals who share the desire to learn and can thus share information. To this end, the **Fractional Currency Collectors Board (FCCB)** was formed in 1983 by a group of fractional currency collectors at the Memphis International Paper Money Show. The FCCB is made up of men and women who are interested in the study and collecting of fractional currency. Current membership is around 150 and includes the best known collectors in the hobby.

The FCCB derives its name from the initial of one of the earliest fractional collectors, F.C.C. Boyd

Membership in the FCCB allows for the needed interaction with other collectors of fractional currency and provides a vehicle for sharing of hard to find information and references. Newsletters are published on an "as news indicates" basis and include new information/articles on fractional currency as well as updates to the *Encyclopedia of United States Fractional and Postal Currency* by Milton Friedberg.

JOIN THE FCCB AND LEARN ABOUT THE WORLD OF FRACTIONALS

Each member gets a copy of the *encyclopedia*, and a copy of the new *beginners book of Fractional upon joining*. Also, annual meetings and an educational seminar are held in Memphis at the International Paper Money Show, thereby providing yet another chance for information gathering and exchange. Dues are \$12 per year after the first year which is \$22.

Enclose \$22 for first year dues, fill out the application on the back, and send to our membership chairman whose address is below. Then shortly you will receive the latest updated copy of M.R. Friedberg's *encyclopedia* and the new *beginners guide*!
